

What Happens After You Approve

The full process, start to finish, so there are no surprises

Sometimes the proposal is only half the question. Homeowners also want to know what the project actually looks like once they say yes. Here's exactly how it goes with Green Ladder.

Step by step

1. Final scope review	We confirm the plan with you before anything is ordered.
2. Agreement & signature	Clear paperwork, no surprises.
3. Material ordering	We order your selected roof system.
4. Permits	We handle permitting where required.
5. Scheduling	We set a date that works for you and check the weather window.
6. Property protection	We protect landscaping, AC units, and surfaces before we start.
7. Tear-off & install	Our crew removes the old roof and installs the new system.
8. Cleanup & magnetic sweep	We leave the property cleaner than we found it.
9. Final photo documentation	You get photos of the completed work.
10. Warranty packet & closeout	Your warranty paperwork, all in one place.

A clean, documented process is the whole point. You always know what's happening on your roof, and you're never guessing.

Ready for a final scope review?

When you're ready, we'll coordinate scheduling with you and walk through exactly what comes next.
